VINNO
VISION IN INNOVATION

Due to powerful 4D function, sensitive waves and color doppler performance, X2 is sufficient to fulfill versatile clinical application. Its ergonomics and intelligence ensure high efficient daily work.

- » Remarkable Performance
- » Intelligent Workflow
- » Ergonomic Design

Remarkable Performance

» Outstanding B mode image quality with advanced image technology

- VFusion
- VSpeckle
- Pulse Inversion Harmonic

» Sensitive color doppler and waves due to RF-Flow technology

Based on VINNO's innovation RF platform, RF-Flow is very sensitive to blood flow with slow velocity or in deep vessel.

» Powerful 4D imaging technology with extended application tools optional

Intelligent Workflow

» Intuitive touch panel operation

Multiple functions can be easily accessed with your fingers, just like a tablet.

» Easy patient data management

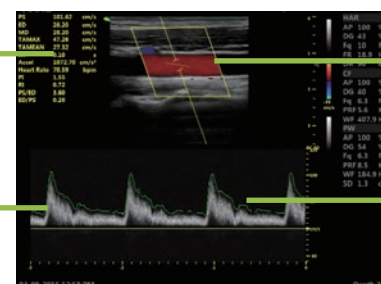

» Raw data post process

Measurement

Angle

PW Dynamic

PW Gain

» Auto IMT

Automatically measures Intima-Media Thickness in interest area and provides the measurement result in easy, fast and accurate approach.
